PROFILE

Aspiring Cybersecurity & DevOps Professional with knowledge of cloud platforms, security operations, and automation tools. Internship experience in web development, Microsoft Teams & Office 365 onboarding, and Al-driven automation. Certified in Google Cybersecurity and OCI Foundations 2025. Skilled in Python, Django, Azure DevOps, and SIEM concepts, with a passion for building secure and scalable solutions.

INTERNSHIP EXPERIENCE

Associate Developer Intern, Amalyte

Nov 2024 - May 2025

- Developed backend features using Python and Django, integrating security best practices.
- Collaborated on CI/CD pipelines with Azure DevOps, reducing deployment time by 15%.
- Conducted code reviews, identifying 10+ potential vulnerabilities.

EDUCATION

BTech in Computer Science & Engineering (Cybersecurity Specialization) | 7.06 Gpa, MLR Institute of Technology

Oct 2021 - Aug 2025 Hyderabad, India

PROJECTS

Blockchain-Based Bug Bounty Tracker, Tech Stack: Flask, Web3.py, Solidity, SQLite, Ganache

- Developed a decentralized app to track and reward bug reports using smart contracts.
- Integrated Flask and SQLite for user dashboards, reducing report processing time by 20%.
- Deployed on Ganache, ensuring secure, transparent reward validation.

Secure File Transfer Platform, Tech Stack: Python, Django, HTML, CSS, HTTPS, MFA

- Built a secure platform with MFA, reducing unauthorized access risks by 30%.
- Implemented Django and MySQL for scalable user management and secure data handling.
- Deployed on AWS, optimizing performance for 100+ concurrent users.

College Vehicle Security System, Tech Stack: Python, Real-Time Tracking, Access Control

- Designed a real-time monitoring system with secure access control for 100+ campus vehicles.
- Used Python and SQLite for efficient data processing and tracking analytics.

SKILLS

Cybersecurity, SIEM, Incident Response, Vulnerability Analysis, Network Forensics, MFA

Programming & Backend, Java, Python, C Language, Django, MySQL

DevOps, AWS, Azure DevOps, CI/CD, Linux

Tools, Nmap, Burp Suite, Wireshark, Ganache, N8N

Soft Skills, Leadership, Communication, Problem-Solving, Critical Thinking

CERTIFICATES

- Google Cybersecurity Professional Certificate Coursera (Grow with google)
- Computer Networks and Internet Protocol NPTEL Certification
- AWS Academy Cloud Foundations AWS Academy ∂
- Oracle Cloud Infrastructure 2025 Certified Foundations Associate ∂
- Cisco Python Programming Essentials Cisco NetAcad

POSITION OF RESPONSIBILITY

President, EWB-IUCEE MLRIT Student Chapter

As President, I led the chapter, managing regional events and fostering an inclusive environment. Oversaw initiatives like the Engineers Student Forum, ensuring successful workshops and projects, while collaborating with participants to meet objectives.

Jul 2024 - May 2025 Hyderabad, India
